

## Haiti Relief Efforts Update

*February 3, 2010*

Two buses full of supplies are in transit, carrying all types of supplies to meet the needs of the many that are seeking refuge in Gonaives and Bayonnais through OFCB Ministries. Funds are providing food and hygiene needs to many. The UN has recorded that 63,000 people will be coming to this region. There will be other buses leaving with materials and supplies, and we will keep you updated as to needs and dates of collection.

Funding has been sent to Huntersville Presbyterian Church to support missionaries (Rick and Debbie Hutchinson) on the ground in Haiti, providing much-needed supplies.

Funding has been provided to ISOH/IMPACT Ministries to help with medical supplies for Double Harvest Hospital, right outside Port-au-Prince. (This is the area where Jim Bramlett and Jerry Rhyne were providing ministry while in Haiti.) The Presbytery has assisted with getting 2,000 pounds of medical supplies from

ISOH/IMPACT to Double Harvest Hospital, with the support of Carolinas Medical Foundation and Hendricks Racing.

With continued collections of medical supplies and the new need for prosthetics and prosthetic supplies, we will be involved in shipping these items to ISOH/IMPACT and OFCB Ministries and other organizations as the need is identified.

As funding is received, we will continue to support these ministries and others to meet the overwhelming and continuing needs in Haiti.
