Annual Adjustment Notes

1. Consider cost of living increases, special family needs (education, medical or other extraordinary expenses), the prevailing standards of the community and the merit of the minister's work in determining his or her compensation. The inflation rate/median family income varies by county.
2. The Session shall recommend 2021 Compensation for action at a congregational meeting called for the purpose of adjusting the terms of the minister's call. The actions may be based on past performance and future expectations.
3. Continuing Education expenses and travel expenses are paid by voucher upon documentation by the pastor. Unexpended Continuing Education time and money may be accumulated up to three years by mutual agreement between pastor and session. Accrued Continuing Education time and money are forfeited upon dissolution of the pastoral relationship. Unexpended Continuing Education time and money and unexpended travel allowance are not available to a pastor as compensation.
4. Sessions should review the various plan design options of the Traditional Program medical dues model. Consult [pensions.org](https://www.pensions.org) to see The Board Bulletins and articles regarding the restructuring.
5. For installed, part-time pastors, the effective salary would be pro-rated to reflect the number of work hours agreed upon in the Terms of Call. All other provisions of the presbytery's minimum terms, such as vacation and Church Professional Relations Committee, would be in effect.

Additional Information
